N. Morello

**Tīr-Dagān** (Tēr-Dagān). Viceroy of Mari\* from the Šakkanakku\* period. His name appears in the next to last position in a *šakkanakku* list publ. by Durand (1985, 155, fig. 2), and on two seal impressions (RIME 4.6.5), one (ME 196) from a clay door sealing and the other (ME 64) from a clay lump (possibly also door sealing). In ME 64 (but most probably also ME 196), T. is said to be son of Itūr[...] (Kupper 1971, 113f.). Chronological reconstructions for the period of his office, in comparison with that of the other *šakkanakkus*, are still uncertain (Durand 1985; Marchetti 2008; Otto 2007, who proposes 1826–1818; cf. Šakkanakku\* A. tab. 1).
